ABOUT ME

Frontend Developer with 2+ years of experience building modern and responsive web applications. Passionate about learning new technologies and improving development skills to build better digital experiences. Experienced in working with cross-functional teams, understanding requirements, and delivering quality solutions. Comfortable adapting to fast-changing project needs and solving real-world problems through simple and effective development.

SKILLS

- React.js
- Next.js
- Typescript
- Ant Design
- Shadcn

WORK EXPERIENCE

Javascript Developer

Logicwind | July 2024 - Present

- Content Management System
 - Redesigned the complete admin panel UI/UX for improved usability and workflow efficiency. Implemented multilingual support across admin and web platforms for dynamic content management. Understanding the dynamic theme mechanism with data caching with next.js.
- Payload CMS Website
 - Worked with Payload CMS for content management and customization workflows. Implemented blocks & RBAC for the CMS with multi-tenant.
- Chatbot
 - Implemented chatbot functionality with custom AI workflow integration and basic features including source references and feedback mechanisms.
 - Developed and initialized admin panel modules for managing chatbot resources, configurations, and content workflows.

React.Js Developer (Internship)

Logicwind | Jan 2024 - June 2024

- Learned frontend development fundamentals including React.js, JavaScript, HTML, and CSS during the initial training period. Designed a form submission application for handling dynamic form data and submissions with Ant Design. Collaborated with senior developers to understand project workflows, debugging, and code management practices.

EDUCATION

B.Tech in Computer Engineering

Uka Tarsadiya University | 2020-2024
